

WOOD'S HOMES FOR THE HOLIDAYS

Benefitting Children and Families

Wood's Homes is a children's mental health centre that operates throughout the province of Alberta, supporting over 20,000 at-risk and vulnerable children, youth, and their families every year dealing with mental health issues big and small. 2024 marks 110 years of **Wood's Homes** providing support to vulnerable young people in the Alberta community.

During the holiday season, **Wood's Homes** is committed to reducing the financial and emotional stress associated with the holidays. The **Wood's Homes for the Holidays** campaign supports children and families in need from our 40 programs in Calgary, Strathmore, Lethbridge, and Fort McMurray. In 2024, **Wood's Homes for the Holidays** will support over 700 children and families in programs, including our schools, foster care programs, youth experiencing homelessness and many of our campus-based programs.

Wood's Homes for the Holidays provides children and families with the ability to come together and share a special holiday meal, share gifts and treats. Support we need includes donations of grocery store gift cards, gas cards, experiences/activities for the whole family, toys, or a financial contribution to the program.

Wood's Homes is committed to **building good mental health**. Your support of **Wood's Homes for the Holidays** will ensure the children and families we serve have a little less stress associated with the holidays and can enjoy time together.
