

WOOD'S HOMES FOR THE HOLIDAYS

Wood's Homes is a mental health centre that operates throughout the province of Alberta, supporting over 20,000 at-risk and vulnerable children, young people, and their families every year dealing with mental health issues big and small. 2024 marks 110 years of Wood's Homes providing support to vulnerable young people in the Alberta community.

During the holiday season, Wood's Homes is committed to reducing the financial and emotional stress associated with the holidays. The Wood's Homes for the Holidays campaign supports children and families in need from our 40+ programs in Calgary, Strathmore, Lethbridge, and Fort McMurray. In 2024, Wood's Homes for the Holidays will support over 700 children and families in programs, including our schools, foster care programs, youth experiencing homelessness and many of our campus-based programs.

Wood's Homes for the Holidays provides children and families with the ability to come together and share a special holiday meal and/or gifts. Support needed includes donations of grocery store gift cards, gas cards, experiences/activities for the whole family, toys, or a financial contribution to the program.

Wood's Homes is committed to building good mental health. Your support of Wood's Homes for the Holidays will ensure the children and families we serve have a little less stress associated with the holidays and can enjoy their time together.
